

SPORT GUIDE

FOR THE WESEL DISTRICT

Kreissportbund
Wesel e.V.

A COLOURFUL
AND AGILE
DISTRICT WESEL

FOREWORD

The Kreissportbund Wesel is a base of the nation-wide program "Integration by Sport" so this is a central issue of our work throughout all topics and levels. We want to enable all foreigners to participate in any sports club activity. It is our aim to make the district Wesel colourful and agile.

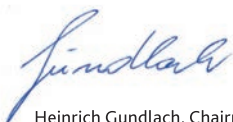

Therefore, we promote the potential of the local sports clubs since they are our engine for integration. Sports clubs are full of community and life; they have great potentials to integrate foreigners into society by offering them a chance to participate in their activities. This Sport Guide shall be a help.

Doing sports is just the first step. We want to encourage foreigners to get involved in clubs' boards and to shape club's work and efforts. The program "Integration by Sport" aims at addressing foreigners to participate in sports clubs to make the program happen in real life.

Since the district Wesel is quite large, we need to connect to existing local networks in the individual municipalities to customize the program to local needs and facilities. If we enhance networking, we will minimize barriers and overcome many obstacles a single player would face. If all stakeholders of the program "Integration by Sport" keep exchanging views and experience, everybody will benefit effectively from their commitment and influence.

Minimizing barriers – this is the aim of this brochure. That is why we translated it into different languages. Sport speaks any language! One of our targets will come along with no efforts: doing sport in a club supports foreigners to learn German.

We would be happy if this Sport Guide could pave the way for many foreigners into the sports club in the district Wesel.

Heinrich Gundlach, Chairman

Our sports clubs are communities:

Exercising together does not only promote health and makes you feel good, it also creates a sense of community and social contacts. You will find acquaintances, friends and a supportive group throughout your life.

Our sports clubs are open to everybody. A sports club lives on the diversity of its members: with or without migrant background, with or without disability, young or old, man or woman. Sports clubs offer activities for everybody. You can find classic sports like soccer, martial arts, swimming and tennis or trend sports like modern dance or even for rollator walkers.

HEALTH PROMOTION

Activity promotes health. The sports clubs in the district Wesel are competent partners for sport to prevent health problems or for rehabilitation sport. Participants benefit from quality-controlled and certified sports courses. Some costs might even be refund by health insurance.

SPORT FOR THE ELDERLY

Our society gets ever older and thus sedentary. Sports clubs in our district cannot prevent you from getting old but from getting sedentary. Joint exercise until old age keeps you fit, ensures mobility and independence. Contact to like-minded people is fun and supports your self-respect. If you are interested, find out about your sports club offers for any age, target and sporting level.

INCLUSION

Inclusion means to enable people with disabilities to participate in any aspect of social and community life. The sports clubs in the district Wesel make this vision come true. They take efforts to remove barriers, to qualify trainers and boards and to create offers fit for joint exercise.

CHILDREN AND TEENAGERS ARE ON THE MOVE

The sports clubs in Wesel also have a variety of offers for children and teenagers. However, it is not only about competition. In any sports club the central task is to promote activity and personalities of young sportsmen and thus to develop not only technical skills but also to promote social and educational competence.

Do you have any questions or are you looking for sport offers fit for you, your friend or family? We will be glad to help you. Please find our contact details on page seven.
